Susan and I spoke with Warren a little bit ago.

One of our Bravo/Houston teams (integrated state/fed - not sure if it was EPA or USCG) came across what appeared to be a human skull. They have no idea if it was real or a plastic Halloween prop. They did not disturb the scene. They called Galveston County Sheriff and waited for them to arrive which took about an hour. After the sheriff arrived and took custody of the scene, our team left.

That's all we know.
